

MBAIAA “Donor-Advised Funds” Contribution Policy

As of March 2026, the General Service Office (GSO) provides the following guidance regarding donor-advised funds:

“Contributions from donor-advised funds may be accepted if we can confirm that the source of the funds is an A.A. member. In other words, if the donor who created and funded the donor-advised fund is an A.A. member, we can accept the contribution to the General Service Board.”

In keeping with this guidance from GSO, MBAIAA will follow the same practice and accept contributions from donor-advised funds **only when the original donor can be confirmed to be an A.A. member.**

The Central Office Administrator (COA) guidelines shall stipulate that the COA and the Treasurer will determine that the source of the DAF contribution is an AA member, and shall include methods they can use to make the determination.

Members considering making a DAF contribution are encouraged to notify the Central Office administrator in advance to clarify that they are the original source of the funds used in the donation.
